

11 Ways to Live in the Moment

It's impossible to live 100% of the time in the moment without being fully aware of the present moment. **Live now and be here in the present.** Often our minds are preoccupied and wandering, trying to solve a problem or worrying about the future. Our minds are active and constantly attempting to break free from the present moment and live in the future, and our bodies are stuck in the present moment for the sake of the future and the past. Keeping your mind in the present has many benefits.

To these ends, live in the moment and be present without it.

1. **Avoid worry.** Worrying can only happen when you look to the future. Keep your thoughts on the present moment and your current reality. You can't worry if you're here in the moment.
2. **Avoid regret.** Regret arises when you look back on the past. The past is over and no longer exists. Thinking you can ever return to the past is a delusion. Let the past go.
3. **Turn off electronic devices.** Cell phones, computers, iPads, and gaming systems are all tools for the present moment. If you're not using them, they're not there. Turn them off or put them away when you're in the moment.
4. **Avoid multitasking.** To be in the moment is to do one thing at a time. Current research is showing that multitasking is a distraction. It's not possible to be in the moment and do a single task at the same time. Single-tasking is the key.

11 Ways to Live in the Moment

It's impossible to live in the moment if you're not living in the present moment. The past is dead and the future is not yet. The only way to live in the moment is to live in the present moment.

Our minds are very active and constantly planning for the future. We are always thinking about what we should do next, what we should avoid, and what we should do to achieve our goals.

To live in the moment is to be in the moment and to be present with our life.

A good way to start living in the moment is to focus on the present. When you are in the present, you are in the moment. When you are in the moment, you are in the present.

Focus on the present and you will be in the moment.

Focus on the present and you will be in the moment.

Focus on the present and you will be in the moment.
